Passengers on Dutch flight arrested

Buffett putting Town Car up for bid to benefit Girls Inc.

OMAHA, Neb. (AP)
8/21/2006

Billionaire Warren Buffett is putting his 2001 Lincoln Town Car up for auction on eBay to benefit a national nonprofit youth organization. Six members of Girls Inc. visited with Buffett Monday at Kiewit Plaza. That is headquarters for Buffett's Berkshire Hathaway investment company. The world's second-richest man had pictures taken with the girls and Town Car.

Girls Inc. is a national nonprofit youth organization that provides educational and recreational programs to girls, particularly those in high-risk, underserved areas.

Buffett said one of his wallets brought in \$215,000 at auction. He said he hopes the Town Car brings in much more.

The light gold Town Car has \$14,000 miles on it. Buffett said he quit driving it about three months ago when he bought a Cadillac DTS.

The auction runs September 12th through 22nd.
